

I do not want to see LPFM stations take priority over current FM translator service. I listen, almost exclusively, to a national commercial free, listener supported radio station, K-LOVE. It broadcasts in my area at 91.1 FM, as well as many other translators throughout the state and the country. Because of this, I can listen to my station nearly anywhere I travel in the state/country. K-LOVE serves me as a resident of the local community by providing commercial free, positive and encouraging, Christian Music, news, and information/insights that are relevant to my life as a Christian. It is so important to me, that I am a monthly financial supporter of this station. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, I (as well as many others in my local community) would lose a big part of our daily support/encouragement system. K-LOVE ministers to us in ways that help us to live our beliefs as Christians and K-LOVE encourages others to give their lives to the Lord and serve Him and those around us. I believe that the service provided by K-LOVE is in the public interest because it helps all who listen to do better at living good and upright lives; it helps our community to be a better place. Please, do not enact the proposed rule changes that would give LPFM priority over existing FM translator service.
